A RETURN TO ACTION

After the disruption to normal life caused by Covid-19 during the last year, everyone within the club is excited (and relieved) to be able to return to the field this year and play rugby.

Despite the chaos of the last year, we have secured a new long term home during the lock-down period and we will play our home games at:

Farmborough Recreation Ground, Farmborough BA2 0BE

The team will compete once again in the West of England League this year, with the season set to start on 15th May 2021 away at Swindon St George and our first home league game being on the 5th June 2021 against Reading Raiders. We encourage all fans, new and old to come down and cheer on the Gladiators.

In addition to the league fixtures, the team will be playing a number of 9s tournaments and post-season friendlies against other European teams.
